JRC PORTFOLIO 02

SUSTAINABLE, CLEAN, INNOVATIVE AND COMPETITIVE ENERGY SOLUTIONS

Joint
Research
Centre

The portfolio aims to:

Deliver an integrated and holistic approach to address the multiple complex issues related to the energy transition

Anticipate the challenges and solutions for an EU society running largely on climate-neutral energy sources

Assess solutions for renewable energy deployment and system integration and evaluate the associated value chains and their socio-economic implications

Main partners

Partner DGs CLIMA, COMP, DEFIS, EEAS, EMPL, ENER, ENV, GROW, MARE, MOVE, RTD

Other stakeholders ACER, CEN, CENELEC, ETSI, IEA, IEC/ISO, IRENA
