

Global problem

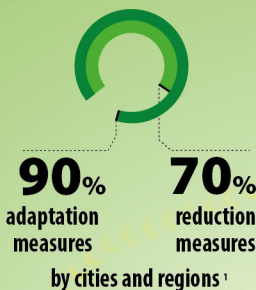

local solutions

#cop21

Ending climate change starts in cities and regions

Climate change: Ambitious commitments, concrete action

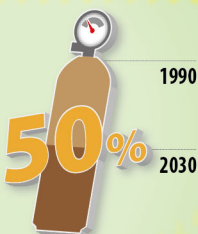

6,500 cities and regions already
committed to cutting
40% of greenhouse gases
by 2030

COP21: What the CoR wants

**Carbon neutral
by 2050**

**EU to cut greenhouse gases
by 2030 (compared to 1990 levels)**

**Action Plan on climate change
for cities and regions**

**Cities and regions must be recognised
within the COP21 agreement**

1. UNPD report, Charting a new low-carbon route to development: A primer on integrated climate change planning for regional governments (2009)
