JRC PORTFOLIO 08

PATHWAYS TO CLIMATE NEUTRALITY THROUGH A LOW-CARBON ENERGY SYSTEM AND LAND-USE MANAGEMENT

Joint
Research
Centre

The portfolio aims to:

Steer a range of energy and land-based policies towards the climate neutrality objective while considering the energy-related, environmental, and socio-economic constraints and opportunities

Provide scientific input to an updated vision for EU climate policies

Pave the way towards the 2040 and 2050 decarbonisation milestones, building on progress towards 2030 goals

Main partners

Partner DGs AGRI, CLIMA, ECFIN, ENER, ENV, ESTAT, GROW, INTPA, MARE, MOVE, REGIO, RTD, TAXUD

Other stakeholders EEA, ECMWF, ICOS-ERIC, IIASA, IPCC, UNFCCC, WMO
