Smartness to existing Buildings

EUSEW returns on 11-13 June 2024 in a hybrid format, in Brussels and online. It comprises a high-level Policy Conference, the EUSEW Awards, and the fifth

European Youth Energy Day as well as opportunities to forge connections with the EUSEW community at the Energy Fair.

The SRI support team will exhibit at the Energy Fair. Meet us at **Charlemagne building (second floor)**, at the **Smart buildings and the Smart Readiness Indicator (SRI)** stand **C-7**.

The Energy Fair is the perfect complement to the high-level Policy Conference. It provides the opportunity for participants and stakeholders to exchange ideas on policies and best practices, and is a chance to lay the foundations for future cooperation.

We will showcase concrete examples of innovative technologies to make our buildings smarter, in cooperation with several research and innovation projects co-funded by Horizon Europe and LIFE: [SRI2MARKET](#), [Smart Square](#), [EasySRI](#), [SRI-ENACT](#), [SMARTER EPC](#), [tunES](#), [iEPB](#), [BuildON](#), [Demo-BLog](#), and [Smart2B](#).

Read more about what we will present at our stand [here](#).

News and updates on the implementation of the smart readiness indicator (SRI) under the energy performance of buildings directive (EPBD).
