## New toolkits to support EU coal regions in transition

The Platform for coal regions in transition has just launched a suite of toolkits to assist practitioners in EU coal regions. The toolkits focus on key aspects of the transition: strategies, governance, employment and welfare support, and environmental rehabilitation. Click the button below to access the toolkits.

## Webinar series

### Transition strategies & Governance of transitions

This week, we had the pleasure to host a webinar and discuss key elements of strategy development and governance processes for EU Coal regions: from problem analysis to defining objectives and implementing stakeholder engagement and social dialogue.

### Register to the upcoming webinars:

- [Environmental rehabilitation and repurposing](#) - 3 June, 12:00 - 13:00
- [Sustainable employment and welfare support](#) - 18 June, 12:00 - 13:00

## A recovery plan for Europe

The implementation of the European Green Deal lies at the heart of the Commission's plan, so does the principle of solidarity. It provides for a fourfold increase of the budget of the Just Transition Fund, at EUR 40 billion, at the direct benefit of coal regions in transition. With a reinforced InvestEU programme, the second pillar of the Just Transition Mechanism will also increase its available support.
