Clean energy for EU islands

Editorial

Dear EU islands community,

Spring has sprung and the days are lengthening. Hence, it is soon time for our community to gather at the [Clean energy for EU islands forum 2024](#)! This year's forum will take place in Pantelleria, Italy. This year's motto encompasses "***The power of islands: building resilience through renewables***" including sessions on the comprehensive technical assistance provided to the selected [#30for30 islands](#) and related topics. We are looking forward to meeting the community and lighting a spark to start the energy transition on even more islands!

Of course, the winners of the last [Call for Postcards](#) and submissions to the recently launched [Call for Videos](#) will be displayed at this year's forum. This Call for Videos is your chance to showcase your islands' clean energy projects and ambitions. We are looking forward to inspiring submissions!

Also, keep an eye on our website's new [Mediahub](#) which is filling up with video messages from the #30for30 islands about the technical assistance provided by the secretariat and their ambitions to reach their goals until 2030.

See you at the Clean energy for EU islands forum 2024!

Yours sincerely,

The Clean energy for EU islands secretariat team

Clean energy for EU islands initiative

Clean energy for EU island forum 2024

Meet us in Pantelleria! Attendees can expect a comprehensive overview of the technical assistance initiatives underway and engage in discussions on relevant crosscutting issues. The forum also provides a platform to network with island stakeholders and gain insights into their specific challenges.
